SHIRTS

IMPORTANT NOTE: Business Shirts and Fitted Shirts (or tailored shirts) are cleaned using two different methods. Below is an explanation of each shirt type and how it is cleaned. If you are unsure what type of shirt you are leaving for cleaning, please contact us. Alternatively, we will clean them using the method that will best maintain the shirt's fabric and shape.

BUSINESS SHIRTS: Regular business shirts are most commonly worn. Their shape is loose, rather than fitted. Business Shirts are laundered, pressed on a shirt unit and finished with a hand iron.

FITTED SHIRTS: Shirts with a tailored/fitted shape. Many (but not all) are made from elastine based fabrics and in order to retain the shirt's shape/fabric, are either dry cleaned (see left) OR hand cleaned and hand pressed (see below).

4 Shirts or more (per shirt)	\$4.50
3 Shirts (per shirt)	\$5.50
2 Shirts (per shirt)	\$6.50
